**In three sentences or less, briefly describe how you intend to spend the money if you are awarded the fellowship. We cannot fund university tuition or expenses associated with professional conferences. We are particularly interested in funding work for which the modest award amount (\$1500 USD) would substantively enhance a candidate's ability to carry out the proposed research.**

**Page 2 is the description of your project. Please follow the guidelines below:**

Please provide a one-page description of the background significance, methods, and expected outcome of the research you propose to support. In addition to your application, we require a brief (1-2 sentences) letter from your academic advisor—sent from their institutional email address—stating that you are a student in good standing enrolled in a graduate program. The application and letter must be received by the chair no later than 15 February 2016. It is the responsibility of the applicant to ensure that letters are received by the deadline. The application may be written in English or French; please see Frequently Asked Questions.
