

Education and Graduate Students Committee

Committee Members: C. P. Bloch, B. S. Coyner, A. J. Edelman, W. S. Fairbanks, E. J. Finck (Chair), H. C. Lanier, R. J. Larsen, B. R. McMillan, B. S. Pasch, and N. D. Whitten.

Mission:

The Committee on Education and Graduate Students assists students of mammalogy in making informed choices of career, improving their scientific expertise, and helping them find funding for research and employment in the discipline. To those ends, the committee prepares and distributes brochures, holds periodic workshops, provides evaluations of student presentations at the Annual Meeting, and conducts various mentoring/networking activities.

Information Items:

(1) Evaluation of student presentations continues to be an extremely popular program among students. At the 2011 Annual Meeting in Portland, 134 student presenters were evaluated by 46 evaluators. We expect a similar number of requests for student evaluations at the 2012 Annual Meeting in Reno. Elmer Finck will continue with the arduous task of assigning evaluators to each presentation, and Brock McMillan will compile and send the evaluations back to the students.

(2) The “Meal with a Mammalogist” program is currently being organized by Sue Fairbanks. The program is in its 18th year and continues to be popular among both students and scientists. We thank all the scientists who have participated in this program over the years. At last year’s meeting our scientists included: Robert Anderson, Jeffery Bradley, George Feldhamer, James Hallett, Doug Kelt, Enrique Lessa, Christie McCain, Sue McLaren, Peter Meserve, Karen Munroe, David Reed, Felisa Smith, Brad Swanson, Dirk Van Vuren, and Don Wilson. We encourage students to take advantage of this opportunity to spend time with these scientists. Each year, members of the E&GS Committee nominate scientists to be part of the program and we welcome and encourage nominations from all ASM members, particularly students.

(3) This is the 18th year the Committee will sponsor a luncheon hosted by the President of the Society for Plenary Session speakers.

(4) The committee also hosts an Annual Social for student attendees at the Annual Meeting. The purpose of the mixer is to allow student attendees at the meeting to meet other students (future colleagues) and establish networks of collaboration and support.

(5) Elmer Finck continues to coordinate the distribution of the “Careers in Mammalogy” brochure, “The Science of Mammalogy” brochure, and the general information brochure.

(6) Our committee also is looking into the possibility of offering a writing seminar and other professional development workshops targeting our student members and coordinated with annual meetings.

Action Items:

(1) The Education and Graduate Students Committee requests \$750 to 1) pay for meals of scientists participating in the *Meal with a Mammalogist Program* and 2) to cover the expenses of the Student Social/Mixer at the 2013 Annual Meeting. This requested support has been provided for the past several years, but has increased because we will not have a meal plan and costs are up because of the future selected venues.

Respectfully submitted,
Elmer J. Finck, Chair
